

PROGRAM SPONSOR

CLIMB FOR COURAGE

Through Climb for Courage, pediatric cancer patients and their siblings are matched 1:1 with a Navy SEAL for a day of indoor rock-climbing and ongoing mentorship. At the climb, the Navy SEALs facilitate One Summit's experiential learning curriculum by inducing individual challenges designed to help each child build resilience. The experience, coupled with the long-lasting friendship formed with their Navy SEAL, provides each child and family with an additional source of strength and encouragement to fight cancer. Climb for Courage simultaneously provides each Navy SEAL mentor with the opportunity to reapply their knowledge and unique set of skills into a structured, community-based program.
